

EPSON Stylus Pro 10000/10000CF Startup Guide Update

Available Optional Interface Cards

The information in “Available Optional Interface Cards” on page 6-2 has been changed as shown below.

ETHERNET I/F CARD (C82363*) has been added for optional use.

Note:

- ❑ *When you use your printer with a Macintosh® computer, EPSON recommends that you use the optional EHTERNET I/F CARD (C82363*) to increase printing speed functionality.*
- ❑ *The EPSONNet 10/100 BASE TX Int. Printer Server (C82384*) may be unavailable in some countries.*
- ❑ *This change is applied to the contents of “Interface cards” in “Options” under “Options and Consumable Products” of “Product Information” in the Reference Guide.*

Installing the Ink Cartridges

The printer ink charging time has been changed from 4 to 7 minutes in Step 8 “Installing the ink cartridges” on page 1-4 as shown below.

After installing all six ink cartridges, the printer begins charging the ink delivery system and the Pause light flashes (for about 7 minutes).
