# Important Safety Instructions

## Instruksi Keamanan Penting

					
Use only the power cord that comes with the printer. Use of another cord may cause fire or shock. Do not use the cord with any other equipment.	Make sure the power cord meets all relevant local safety standards.	Place the printer near a wall outlet where the power cord can be easily unplugged.	Use only the type of power source indicated on the label.	Do not let the power cord become damaged or frayed.	Do not open the scanner unit while copying, printing, or scanning.
Gunakan hanya kabel daya yang disertakan dengan printer. Penggunaan kabel lain dapat menyebabkan kebakaran atau sengatan listrik. Jangan gunakan kabel dengan peralatan lain.	Pastikan kabel daya memenuhi semua standar keamanan lokal yang relevan.	Tempatkan printer di dekat stopkontak dinding di mana kabel daya dapat dicabut dengan mudah.	Gunakan hanya jenis sumber daya yang disebutkan pada label.	Jangan biarkan kabel daya rusak atau terkoyak.	Jangan buka unit pemindai sampai penyalinan, pencetakan, atau pemindaian selesai.

					
<p>Do not use aerosol products that contain flammable gases inside or around the printer. Doing so may cause fire.</p>	<p>Except as specifically explained in your documentation, do not attempt to service the printer yourself.</p>	<p>Keep ink cartridges out of the reach of children and do not drink the ink.</p>	<p>If ink gets on your skin, wash it off with soap and water. If it gets in your eyes, flush them immediately with water. If you still have discomfort or vision problems, see a doctor immediately.</p>	<p>Do not shake ink cartridges after opening their packages; this can cause leakage.</p>	<p>If you remove an ink cartridge for later use, protect the ink supply area from dirt and dust and store it in the same environment as the printer. Do not touch the ink supply port or surrounding area.</p>
<p>Jangan gunakan produk-produk aerosol yang mengandung gas yang mudah terbakar di dalam atau di sekitar printer. Ini dapat menyebabkan kebakaran.</p>	<p>Kecuali secara khusus dijelaskan di dalam dokumentasi Anda, jangan pernah mencoba untuk memperbaiki printer Anda sendiri.</p>	<p>Jauhkan cartridge tinta dari jangkauan anak-anak dan jangan minum tinta.</p>	<p>Jika tinta mengenai kulit Anda, cuci bersih dengan sabun dan air. Jika tinta mengenai mata Anda, siram segera dengan air. Jika Anda masih merasa tidak nyaman atau mengalami masalah pengelihatatan, kunjungi dokter segera.</p>	<p>Jangan kocok cartridge tinta setelah membuka bungkusnya; ini dapat menyebabkan kebocoran.</p>	<p>Jika Anda melepaskan cartridge tinta untuk digunakan lain waktu, lindungi wilayah persediaan tinta dari kotoran dan debu dan simpan di lingkungan yang sama dengan printer Anda. Jangan sentuh port persediaan tinta atau wilayah sekitarnya.</p>

## Replacing Ink Cartridges

### Mengganti Cartridge Tinta

#### Ink Cartridge Handling Precautions

- Never move the print head by hand.
- Some ink is consumed each time cartridges are inserted because the printer automatically checks their reliability.
- For maximum ink efficiency, only remove an ink cartridge when you are ready to replace it. Ink cartridges with low ink status may not be used when reinserted.
- Epson recommends the use of genuine Epson ink cartridges. Epson cannot guarantee the quality or reliability of non-genuine ink. The use of non-genuine ink may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior. Information about non-genuine ink levels may not be displayed, and use of non-genuine ink is recorded for possible use in service support.
- Make sure you have a new ink cartridge before you begin replacement. Once you start replacing a cartridge, you must complete all the steps in one session.
- Leave the expended cartridge installed until you have obtained a replacement. Otherwise the ink remaining in the print head nozzles may dry out.
- Do not open the ink cartridge package until you are ready to install it in the printer. The cartridge is vacuum packed to maintain its reliability.
- Other products not manufactured by Epson may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior.
- Do not turn off the printer during ink charging as this will waste ink.
- When an ink cartridge is expended, you cannot continue printing even if the other cartridges still contain ink.

#### Tindakan Kewaspadaan Dalam Menangani Cartridge Tinta

- Jangan pernah gerakkan Print Head dengan tangan.
- Sejumlah tinta akan terpakai setiap kali cartridge dimasukkan karena printer secara otomatis akan memeriksa kualitasnya.
- Untuk efisiensi tinta yang maksimal, keluarkan cartridge tinta hanya jika Anda siap untuk menggantinya. Cartridge tinta dengan status tinta yang hampir habis mungkin akan tidak dapat digunakan jika dimasukkan kembali.
- Epson merekomendasikan penggunaan cartridge tinta Epson yang asli. Epson tidak menjamin kualitas atau keandalan tinta yang tidak asli. Penggunaan tinta yang tidak asli dapat menyebabkan kerusakan yang tidak dicakup oleh jaminan Epson, dan dalam kondisi tertentu, dapat menyebabkan perilaku printer yang tidak wajar. Informasi mengenai tingkat tinta yang tidak asli mungkin tidak akan ditampilkan, dan penggunaan tinta yang tidak asli dicatat untuk kemungkinan penggunaan dalam dukungan layanan.
- Pastikan Anda memiliki cartridge tinta baru sebelum Anda mulai proses penggantian. Setelah Anda mulai mengganti cartridge, Anda harus menyelesaikan semua langkah dalam satu waktu.
- Biarkan cartridge yang telah habis tetap terpasang sampai Anda memperoleh penggantinya. Jika tidak tinta yang tersisa pada nozzle Print Head dapat mengering.
- Jangan buka kemasan cartridge tinta sampai Anda siap untuk memasangnya pada printer. Cartridge dikemas hampa udara untuk menjaga mutunya.
- Produk lain yang tidak diproduksi oleh Epson dapat menyebabkan kerusakan yang tidak dicakup dalam jaminan Epson, dan dalam kondisi tertentu, dapat menyebabkan perilaku printer yang tidak wajar.
- Jangan matikan printer pada saat mengisi tinta karena ini akan memboroskan tinta.
- Saat sebuah cartridge tinta habis, Anda tidak dapat melanjutkan pencetakan meskipun jika cartridge tinta yang lain masih berisi tinta.

## Print Quality Problems

## Masalah Kualitas Cetakan

Try one or more of the following solutions in order from the top. For further information, see your online User's Guide.

- Clean the print head.  ➔ 42
- Align the print head.  ➔ 44  
If quality is not improved, try aligning using the printer driver utility. See your online User's Guide to align the print head.
- To clean the inside of the printer, make a copy without placing a document on the document table.
- Use up ink cartridge within six months of opening vacuum package.  ➔ 54
- Try to use genuine Epson ink cartridges and paper recommended by Epson.

Coba satu atau beberapa solusi berikut sesuai urutan dari atas. Untuk informasi lebih lanjut, lihat Panduan Pengguna online Anda.

- Bersihkan Print Head.  ➔ 42
- Sejajarkan Print Head.  ➔ 44  
Jika kualitas tidak menjadi lebih baik, coba sejajarkan menggunakan utilitas driver printer. Lihat Panduan Pengguna online Anda untuk menyejajarkan Print Head.
- Untuk membersihkan bagian dalam printer, buat salinan tanpa menempatkan dokumen apapun pada bidang dokumen.
- Habiskan isi cartridge tinta dalam enam bulan setelah membuka kemasan hampa udara.  ➔ 54
- Coba gunakan cartridge tinta Epson asli dan kertas yang direkomendasikan oleh Epson.

## Print Layout Problems

## Masalah Penataan Cetakan

Check the following points.

- Make sure you selected the correct **Paper Size, Layout, and Zoom** setting for the loaded paper.  ➔ 22, 31, 36
- Make sure you loaded paper correctly.  ➔ 15
- Make sure the original is placed correctly.  ➔ 16
- If the edges of the copy or photo are cropped off, move the original slightly away from the corner.
- Clean the document table. See your online User's Guide.

Periksa hal-hal berikut.

- Pastikan Anda memilih pengaturan **Paper Size, Layout, dan Zoom** yang benar untuk kertas yang diumpankan.  ➔ 22, 31, 36
- Pastikan Anda telah memuatkan kertas dengan benar.  ➔ 15
- Pastikan dokumen asli telah ditempatkan dengan benar.  ➔ 16
- Jika tepian salinan atau foto terpotong, geser dokumen asli sedikit menjauh dari sudut.
- Membersihkan bidang dokumen. Lihat Panduan Pengguna online Anda.
